

## Stabilo and other Handwriting Products

Stabilo S pens and pencils available for right and left handers and can be purchased from shops such as Tesco's, The Range, Sainsbury's, Amazon

'S' Move pens – These are fibre tipped pens so provide easy marking and some friction on the paper. The ergonomic shapes and finger thumb indents support a good functional tripod grasp, although beware that your child does not cross their thumb across the shaft of the pen.

Easi-ergo pencils – benefits: Support a tripod grasp – pencil graphite supports friction on paper so does not run away like a 'ballpoint'. Thicker shaft of pencil assists to achieve improved and relaxed hand posture.

Stabile easy gel: Blue gel ink (line width 0.5mm) with anti-smudge formula.

Easiball: STABILO EASYball is a chunky retractable ballpoint pen with Stabilo's EASY ergonomic grip with comfortable moulded rubber. EASYball is the natural progression in the EASY range and with its grown-up styling is equally suitable for children over 12 or anyone who does a lot of writing or has grip problems. It sits perfectly in the hand and ensures flowing writing with little pressure.

The innovative grip moulds ensure correct grip immediately and there are both left-handed and right-handed versions. The ball point is not too fine so control is not always a problem.
